CEMETERY LOTS CARED FOR
AND TURFING DONE.

WITH increased facilities the subscriber is again prepared to take charge and keep in order such lots in any of the cemeteries of the city as may be entrusted to his care. He will give careful attention to the turfing and grading of them; also to the cleaning of monuments and headstones, and the removal of bodies in addition to work at the cemetery he will do turfing and grading in the city at short notice.

Cemetery lots for sale, also Loom and Turf. Orders left at his residence, corner of Rich and Adams streets, or by mail, or left with Oliver W. Ham (telephone 2-8), 25 Market street, will receive prompt attention.

M. J. GRIFFIN

STATE NEWS.

Items of Interest to People in This Part of New Hampshire.

For the past few days, the Exeter police have been on the lookout for Michael Reddon, a 13 year old orphan who for two years has made his home with his uncle, Dennis Callahan, on Front street in that town. The boy is wanted for the larceny of one and possibly two bicycles.

Mrs. Carrie Cole, who has been acting postmistress at Hampton since the death of her husband, has received her appointment to the office and is now the legal incumbent.

The bicycle race between Exeter and Andover will take place at Charles River park, Boston, on Friday afternoon. Louis K. Schneider, '02, of Brooklyn, N. Y., and Percy W. Brown, '02, of Exeter will probably be Exeter's representatives.

A paper is being circulated at Hampton for subscriptions for the benefit of Mr. and Mrs. John Dow, who lost all their belongings at the Beckman house fire a few weeks ago.

Car No. 8 on the Exeter, Hampton and Amesbury street railway was badly damaged by a collision with a car on the Haverhill, Merrimack and Amesbury road near the State line Saturday morning.

The members of the Exeter Athletic association will enjoy their annual outing at Bayside on June 10.

In the Dover police court Saturday Thomas Linsky was arraigned upon three complaints, one for keeping a disorderly house, one for keeping malt liquors for sale, and one for keeping spirits for sale. To all three of these he pleaded not guilty and was held for supreme court under bonds aggregating \$800.

There is likely to be an important change in the length of time the N. H. N. G. will be in camp at Concord this year. Brigadier-General Tollen has sent a communication to the commanding officers of the various companies, suggesting that the camp break up early Saturday morning, instead of Friday afternoon, as has been the custom. By this means, the men will have five full days in camp, instead of four. It is believed that better results can be obtained.

FOR YORK COUNTY.

List of the Enumerators Appointed by J. A. Place of South Berwick.

James A. Place of Berwick, in charge in the census of the eastern part of Maine, has made the following appointments of census enumerators in York county:

Acton—Paul Sanborn.
Alfred—Fred A. Hobbs.
Berwick—John H. Emery, Arthur C. Clark.
Biddeford—Elmer O. Davis, Charles E. Jeffrey, Edward A. Treadwell, L. J. Renouf, James G. Goodwin, Thomas F. Carey, N. P. Renouf, John W. Randall.
Buxton—George E. Smith.
Cornish—Alexander Boothby.
Dayton and Lyman—Francis N. Clark.
Elliot—C. Edward Bartlett.
Hollis—Thomas J. Carle.
Kennebunk—Charles H. Cole, Willis A. Dinamore.
Kennebunkport—John Hall.
Kittery—Daniel A. Bill, Fred F. Locke.
Lebanon—Stephen D. Lord.
Limerick—William A. Harthorne.
Limington—Joseph H. Brackett.
Newfield—Charles A. Mitchell.
North Berwick—Charles F. Goodwin.
Old Orchard—William A. Whitlier.
Parsonfield—Albert R. Leavitt.
Saco—Alton R. Emmons, W. W. McTear, John P. Deering.
Sanford—Willis E. Sanborn, Albert W. Hunt.
Shapleigh—N. T. Abbott.
South Berwick—Thomas J. Goodwin, William N. Litchfield.
Waterboro—Joseph A. Hobbs.
Wells—Calvin S. True, George Gordon.
York—Howard M. Stover, Augovine Gowen.

OSGOOD LODGE, NO. 48, I. O. O. F.

All members intending to visit Riverside Lodge, No. 72, of Kittery, on Monday evening, May 21st, must be at the ferry in time to take the 7:20 boat. Special cars to and from the hall.

HOWARD ANDERSON, Secretary.

No man can cure consumption. You can prevent it through Dr. Wood's Norway Pine Syrup cures coughs, colds, bronchitis, asthma. Never fails.

TEA TABLE TALK.

I wonder if there is any truth in the rumor that Charles Downing, the official umpire of the Portsmouth baseball league, has applied to the city government for permission to use that diving suit, to be purchased for municipal use, in the games at the bicycle park. If the Greenland expert has to stand such a storm of quips and flings in every game as he did a week ago last Saturday, I shouldn't at all blame him for wanting to conceal himself in something. Charlie is all right, at that.

A man from the North country who was in this city on Saturday said to me that the folks up his way were already beginning to enthuse over the great Kearsarge celebration here and were hunting up all sorts of information about Portsmouth, the battleship and other things of interest in connection with the proposed jubilee. It certainly looks as though Portsmouth would be severely taxed to take care of the hosts that are planning to come here on the glorious occasion.

The tide of trolley travel on Sunday is already beginning to turn Hamptonward, to a degree that is noticeable. That is, scores of people ride as far in the direction of Hampton as possible (down to Rye Center) and then walk two or three miles further to see what progress is being made in the extension of the road. It is apparent that this is to prove a big year for Hampton. York Beach must get a hustle on, if it intends getting a reasonable share of the transient patronage on Sundays during the summer.

The large colony of sparrows that have settled themselves in substantial nests of hay on the projections which run along the front of the Congress block are becoming more and more chipper as the midyear draws near. They are the liveliest early in the morning, when the noise they make would do justice to a whole forestful of birds. Those of us who have occasion to pass along Congress street about four in the morning can testify to the extent of their twitterings. By the way, all those nests perched in such a conspicuous place form an interesting sight.

The smart society of Portsmouth is going to be "real English" pretty soon and imitate the Prince of Wales' crowd in London by getting up an affair termed a "soiree blanche," and meaning a ball where all the decorations and costumes are pure white. This idea is quite new to this city and shows that our high life people are on the alert to grasp any novelty of which they may hear.

If Portsmouth is wide awake, she will use her very best endeavors to persuade the Manchester Grocers and Provision Dealers association to hold its annual outing here this summer. It would require but little urging to bring this about, as the association is already looking over the ground down here with a view of coming here for a day's recreation. The board of trade should see to it that this visit of five or six hundred people is not missed.

GIVING GOOD SATISFACTION.

While reports have been made that a number of the western railroads that tried the experiment of treating their roadbeds with oil are to discontinue the practice owing to the complaints that the fine dust stirred up by the fast trains ruins the more delicate fabrics worn by passengers, it is learned that the Boston & Maine management is so thoroughly satisfied with the results on the 443 miles of its track that were oiled last year, that arrangements have been perfected for continuing the sprinkling this year.

SPAIN'S GREATEST NEED.

Mr. R. P. Oliva, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life in every muscle, nerve and organ of the body. If weak, tired or ailing, you need it. Every bottle guaranteed, only 50 cents. Sold by Globe Grocery Co.

"Ill weeds grow apace." Impurities in your blood will grow unless you promptly expel them by taking Hood's Sarsaparilla.

ACROSS THE RIVER.

Brief Notes From Kittery Gathered For Herald Readers Today.

Mr. Albert Bowden, a conductor on the P. & N. Y., has so far recovered from his recent illness as to be able to resume his duties.

Mr. Frank Alburtson of Worcester, passed Sunday in town.

Mr. Fred Bradbury and family passed Sunday at their cottage near Kittery Point bridge.

Miss May Brown is recovering from an illness.

Mr. John Williams, otherwise known as "Uncle Johnny," is ill at his home at the lower foreshore.

Mr. Osgood Hall of Kittery Point is passing a few days in Exeter.

The G. A. R. and Relief Corps have accepted an invitation to meet with the Second Christian church next Sunday morning. This service will be a union service with the Second Methodist church.

The juniors of the High school will give an entertainment in Wentworth hall next Thursday evening.

YOU MUST ANSWER.

Some of the Questions the Census Taker Will Ask of You.

The census enumerators will begin work in this city the first of June and have received their blanks and instructions from headquarters. One of the things to be used was shown to a *Herald* man and a note was made of the questions that must be answered.

The following is some of the questions that must be answered:

Name.
Relation to head of family.
Color or race.
Sex.
Date of birth, month and year.
Age at last birthday.
Whether single, married, widowed or divorced.
Number of years married.
How many children.
Number of these children living.
Place of birth.
Place of birth of father.
Place of birth of mother.
Year of immigration to the United States.
Number of years in the United States.
Naturalization.
Occupation, trade or profession.
Months, not employed.
Attended school (in months).
Can read.
Can write.
Can speak English.
Is home owned or rented.
If owned, is home free or mortgaged.

THE JUNE CENTURY.

The June Century will have some political bearings, including an essay on Reformers by Governor Roosevelt; Hamilton's estimate of Burr, as shown in unpublished documents, and accompanied by new portraits of the two antagonists; "The Business Man and the Consular Service," by Harry A. Garfield, and the "Origin of the Lincoln Rail" of told to J. McCan Davis by Governor Oglesby. Three short stories deal variously with phases of political life: "The Mouse," by a new writer, the scene being in Washington official life; "Conlon," a novel character sketch of a healer's devotion to his boss, and "The Stained-Glass Political Platform," a satirical sketch to which current events are likely to attract special attention.

NAVAL ORDERS.

These naval orders have been issued: Passed Assistant Surgeon W. C. Bristol, detached from the Detroit when out of commission and to duty on the Mayflower.

Lieut. R. D. Hasbrouck, detached from the Detroit, when out of commission and to the torpedo station for course of instruction.

Commander E. S. Prime, to the war college for a course of instruction and resume duties at New York yard on completion of course.

Commander A. B. Speyers, to the war college for a course of instruction and to resume duties at New York yard on completion of course.

MAINE NOTES.

It is reported that sixty-five indictments have been found by the York county grand jury at the present session at Alfred. Forty of these are said to be against liquor dealers. None of the indictments have been made public.

The Bangor & Aroostook railroad re-

ports for the quarter ended March 31 gross earnings of \$281,135, net \$98,785, balance over charges and betterments, \$840. Charges were \$40,945 and betterments, \$7000.

Herbert Bonner's two year old daughter, Jennie, while playing with another child of about her own age, at Damaris cotta, Wednesday, lost her balance and fell from the door of the ell of the house striking her forehead on the plank doorstep. The child soon went into convulsions and her condition grew worse until she died Thursday morning.

Bishop Codman has promised to give, dollar for dollar, for all the church of Heavenly Rest, Auburn, will raise on its debt. The debt amounts to \$2,7000.

While Christopher Gatchell, carpenter at the Hill corporation mill, Lewiston, was turning a roll in the lathe, Friday, the roll split and one end struck him in the eye, completely destroying the sight and breaking his nose flat on his face.

Twin boys were born to Mr. and Mrs. Walter Stone of Kennebunkport on May 10.

Isaac Northrop of Canton, a veteran of the Civil war, aged about 58 years, died Thursday, almost instantly.

The dwelling of Mrs. Foster Small, at Millbridge was burned Wednesday evening. The house was valued at \$3000. Insured.

THAT THROBBING HEADACHE.

Would quickly leave you, if you use Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by Globe Grocery Co.

CLAY PIPES.

One English Family Has Made Them For About Three Hundred Years.

It is difficult to state with any degree of accuracy when tobacco was first introduced into Europe, but it is generally believed that Sir Walter Raleigh took it to England toward the end of the sixteenth century. With the introduction of tobacco came the need of tobacco pipes, as before tobacco smoking began the smoking of herbs and leaves, even for medicinal purposes, was not at all general. It is stated that at Brascley, in Shropshire, the first clay pipes were made, and although many are made in Glasgow and elsewhere, the Brascley clay pipes are the best known among old smokers the world over, and their manufacture is still continued by descendants of the original makers.

The clay for making the pipes is and always has been obtained from Devon and Cornwall, the absence of coal in these districts and the abundance of it in Brascley having offered sufficient inducement to the early manufacturers to settle there. Pioneering in the early days of its introduction was a very different matter from what it is now. Then the greater part of the manipulation was performed by the master, and 20 or 24 gross were the largest quantity ever burned in one kiln. This required about a ton of coal. Each pipe rested on its bowl, and the stem was supported by rings of pipeclay placed one upon the other as the kiln became filled. The result was that at least 20 per cent were warped or broken in the kiln.

At the present time the preliminary preparations of the clay are made by men, but the most delicate part is almost entirely entrusted to the hands of women. The pipes are placed in "saggers" to be burned after the Dutch method, and from 350 to 400 gross in one kiln are not an uncommon quantity. The breakages amount to not more than 1 per cent. One collector has a splendid collection of old clay pipes, the oldest of them, from their trademarks, hailing from Brascley and being dated as long ago as the year 1600.—New York Sun.

Pneumatic Treatment.

"Mrs. Pickers treats her husband very badly," remarked McCorkle.
"I would say that she treats him like a bicycle tire," replied McCorkle.
"How do you make that out?"
"She blows him up."—Harper's Bazar.

Best Housed Community in the World.

There is a greater concentration of wealth in the state of New York than elsewhere, the average per inhabitant being 40 per cent over that of the Union at large. This is partly shown in the prodigious value of house property, including public buildings, which averages \$810 per inhabitant in the state of New York against \$420 for the whole Union. The six middle states taken collectively give an average of \$660 of house property per inhabitant, which is double the ratio found in Great Britain, and hence it may be affirmed that the people of these states are, on the whole, the best housed community in the world.

The average wealth per inhabitant has almost quadrupled in 40 years, a marvelous proof of the progress of these states and unparalleled in Europe, for McCulloch lays it down that only prosperous nations can double their wealth in that interval. The accumulation in the middle states per inhabitant has been \$10.20 per annum higher than in New England and exactly double the average accumulation yearly in Great Britain in the interval of 1860-98. Agricultural wealth forms only 15 per cent of the total in the middle states, whereas it is 25 per cent in the whole of the Union.—Michael G. Mulhall, F. S. S., in North American Review.

Bread Crumbs.

Many recipes call for cracker dust in which to roll the food that is to be fried in deep lard. If these directions are followed, the result will never be satisfactory. Cracker crumbs soak in the fat and should only be used for any dish to be set in the oven—as escalloped oysters or potatoes au gratin. For deep lard cooking only bread crumbs should be employed. If oysters are first rolled in the fine bread crumbs, then in egg beaten up with one tablespoonful of water, a seasoning of salt, cayenne pepper and a dash of Worcestershire sauce, then again and carefully rolled in the crumbs until completely covered and finally immersed in the smoking fat—have plenty of that—they will be found to look and taste exactly like those served at the best restaurants. Any one who is familiar with the sticky half burned, half raw fried oyster usual to the private house should try this recipe, following its directions implicitly and be thankful for it.—New York Post.

The small boy may belong to the rising generation, but his mother feels inclined to doubt it sometimes when she is trying to get him out of bed in time for breakfast.—Somerville Journal.

The Buddhist monastery of Haine, in Tibet, is the loftiest inhabited point in the world. It is 17,000 feet above sea level.

Spring

Is gladly welcomed for the vitality, freshness and purity it gives everything in nature; its cleansing showers and sunshine remove, dissolve and disinfect unhealthful accumulations. It

Is the Time

When our physical systems need to be cleansed and invigorated with Hood's Sarsaparilla. This good medicine expels all the badness that has gathered in the blood and enriches and vitalizes the life current. If you take Hood's

To Purify Your Blood

Now, you lay the foundation for good health in the months that are to come. Hood's Sarsaparilla tones the stomach, creates an appetite, builds up and fortifies the whole system by giving vitality and strength to every tissue, organ, nerve and muscle.

Take the Best Spring Medicine

"I can highly recommend Hood's Sarsaparilla as a spring medicine. There is a necessity for taking such a medicine, and I find none better than Hood's. I would never accept any other in its place." C. LAIB, 1231 N. 29th St., Philadelphia, Pa.

UP-TO-DATE BOOTS AND OXFORDS

DUNCAN'S,
5 Market St.

Our OXFORDS are the handsomest, easiest, coolest and most up-to-date shoes made.

An inspection will convince any man or woman that we are justified in saying we have the finest and most fashionable leathers, most correct and latest shapes. All prices from \$1.25 to \$5.00.

ENGLAND'S DAY OF JOY

The Relief of Mafeking Celebrated With Wildest Enthusiasm.

BADEN-POWELL THE HERO.

Reports of the End of the Long Siege Occasion Widespread Rejoicing—The War May Close Soon.

London, May 19.—The whole British empire has been carried off its feet by the news of the relief of Mafeking. Even the demonstrations on Lady Smith day pale before the spontaneous transports of delight recorded in cablegrams from all parts of the world where floats the union jack. Overstrained feelings have found vent in a roar of heartfelt enthusiasm, which, starting from the various news centers, spread like a prairie fire through the United Kingdom and the colonies and converted every town into a mob invaded center of shouting, cheering, singing, half frantic, but for the most part orderly humanity, although the rowdy element is making the most of the occasion, evidently feeling the effects of unlimited free drinks. The empire is in a fever, and it is no exaggeration to say that most of the people in the United Kingdom are actually taking a holiday in honor of the defenders of the little prairie outpost. The absence of official confirmation of the relief of Mafeking from British

sources fails to raise a doubt, as the man on the street roars the official statement of the parliamentary secretary of the war office, Mr. George Wyndham, in the house of commons, that no official announcement could be expected for at least 48 hours after the relief had been effected. But further confirmation of the various reports of the relief is received in a dispatch from Lourenço Marques, under today's date, announcing that Mafeking had been relieved.

There has been no interruption of London's celebrations of the British successes in South Africa, which were thought to have reached a climax yesterday, but which increase in enthusiasm as the day proceeds. The omnibuses are crowded with men and women waving flags, and every cab, cart and carriage and nearly every house is decorated. Every one, from the newswriters in the street to the most dignified business men, is wearing a rosette of the British colors. Traffic is practically suspended, and great crowds surround the Mansion House and all the public buildings shouting and cheering.

Lady Curzon's Congratulations.
Lady Georgiana Curzon this morning telegraphed her congratulations to Colonel Baden-Powell and to her sister, Lady Sarah Wilson. She informed Colonel Baden-Powell that the fund for the relief of Mafeking, for which she made an urgent appeal on May 12, already amounts to £1,000.

The scenes in the metropolis outside the Ladies' demonstration. Many thousands gave up all thought of work and their employers were only too glad to join in the holiday making. As hundreds of bands of brass bands journeyed from the suburbs their occupants kept up a roar of cheering which was echoed by the inhabitants of the beleaguered houses along the route.

From dawn the crowds swelled until the thoroughfares were impassable, and the relief of Mafeking had to be stopped. No attempt was made to restrain the pent up feelings. Immense silk hats were equally with the work men's caps enveloped in union jacks, and stockbrokers vied with street vendors in hurrahing for "B. P." and Mafeking and venting their enthusiasm through the horns, while ladies of high degree participated in the high carnival with remarkable zest.

Mansion House Demonstration.
Memorable demonstrations had been proceeding outside the Mansion House since early morning. A dense mass of waving hands, brightened by the national colors, formed an undulating platform over the immense open space stretching far up the adjacent streets. Ever and anon the crowd burst forth with the national anthem, "Rule, Britannia," or "The Abolition of Slavery." The huge picture of Colonel Baden-Powell was cheered until the people were hoarse, and every now and then some one with a cornet or a flute started patriotic airs. A few hundreds broke off the edge of the mass, and, forming an impromptu procession, followed musicians through the neighboring highways.

A similar feeling of gratification found expression in the west end and in hardly less exuberant fashion, while all the reports from the provinces reach the studios of London's demonstrations.

All the naval and military centers honored the occasion by dressing their ships and flags.

A Cape Town dispatch under today's date says the relief forced Mafeking unopposed, the siege having been already raised.

The American community at Cape Town displayed great satisfaction at the news of the relief and the prospects of a speedy termination of the war.

The Relief Column.
The Central News' correspondent at Cape Town, telegraphing under today's date, says:

"I am permitted by the censor to say that the Mafeking relief column consisted of 2,000 picked men from the South African Light horse, the Imperial yeomanry and the Kimberley boys. They left Kimberley on May 4 with 35 wagons of stores and ammunition, four horse

illery guns, two pom-poms and two Maxim guns and took a route to the westward of the railway.

"Short official bulletins have arrived at Cape Town from time to time stating that their advance was not being opposed.

"It is believed in official circles here that the relief of Mafeking was effected with the most trifling loss."

A dispatch from Knopstad dated May 18 says: General Hutton, with his mounted infantry, today made a dash upon Bothaville and captured three commandos and 19 other prisoners, mostly Zulus. The Colt machine gun section commanded by Attorney, has arrived here.

Owing to the derailing of two trains at the Vet river progress toward the completion of the railway deviation will be delayed for some days.

THE WEEK IN LONDON.

Incidents of War and Peace at the British Capital.

London, May 19.—While parts of the United States have been sweltering England and most of Europe returned to winter furs and the heaviest overcoats this week. Northeast winds, amounting to a gale in many places, have devastated the fruit blossoms in the country, and the prospects of the orchards are decidedly unfavorable.

The Barrymore peerage will be revived in favor of the Right Hon. Arthur Hugh Smith Barry, chairman of the National Union of Conservative Associations. It became extinct in 1824 with the death of the sixteenth Earl Barrymore, who was one of the largest landowners in Ireland.

Mr. Smith Barry maintains that he is the rightful Barry Barrymore. It is one of the ancient Irish peerages and was in existence long before it was formally recognized by Henry VIII. The Right Hon. Arthur Hugh Smith Barry, who was born in 1843, was first married to a daughter of Lord Dunraven, who died in 1884, and in 1885 he married Mrs. Elizabeth Post of New York, widow of Mr. Arthur Post and daughter of General Wadsworth, U. S. A., of Orono, N. Y.

American interest in the Derby was stimulated this week by the excellent reports of Mr. James K. Keene's Disguise II. Those who recall the tragic end of Tom Slane's mount on Hobeau in 1890 are watching with renewed interest the development of his Keene mount this year.

While the Prince of Wales' Diamond Jubilee has won the distinction of being the longest 2 to 1 favorite and favorite, those looking for longer odds note with interest the good reports about Disguise II. The Sportsman's well informed Newmarket correspondent says today:

"Very useful Sir Prefect was bought for 610 guineas to lead Disguise II for the next ten days, and more important still the American owner of Hobeau, J. E. McDonald, has kindly lent him for the purpose of trying Disguise II. While observation stiffens the belief that Fashville will win, we look on Disguise II as a more likely source of danger than Chevering."

The University of Oxford intends to confer the honorary degree of doctor of divinity on the Rev. Morgan Dix of Trinity church, New York.

Fresh advice received from the expedition to Abyssinia, headed by Mr. William Fitzhugh Whitcomb, of New York, show the party will probably divide near Lake Rudolf, if it is found that in the country to the north, between the lake and the Nile, there is difficulty in obtaining supplies. This is regarded as probable, as the country has not been explored and is reported to be continually raided. The expedition had, according to the last news received, 64 camels, but there was an insufficient number of food which may necessitate only a portion of the party of travelers proceeding to the Nile while the remainder may retrace their steps to the coast.

It is estimated that £6,000,000 (\$20,000,000) was represented in jewelry among the audience at the opening night of Grant's opera. Yet the most brilliant night of the week, so far as costumes and enthusiasm are concerned, was the one which was made notable by Mme. Gauthier's first appearance this season as Carmen, Friday, May 18, though many of the royalties were detained at Windsor by the christening of the son of the Duke and Duchess of York, The Duke and Duchess of York, Earl and Countess Cadogan, Mr. and Mrs. Bradley Martin, Lady Randolph Churchill, Mr. J. Pierpont Morgan and many other prominent Americans were present.

"According to the latest story going the rounds, 'Bobs' fight on 'Bath Olivers' (Bobs are not a necessary form of expression, but a simple looking for which is credited to the celebrated Dr. Oliver, a friend of Pope and other eighteenth century notabilities. 'Bobs,' apparently, took out a large supply of these and has since sent for more, which were taken by Lady Roberts.

Recalling General Buller and his say, there is also an interesting anecdote current in Buller. It appears, telegraphed from Natal to some wine merchants to send out 50 cases of champagne marked 'senior oil.' About the time the wine was due Buller wired to the officer in charge of the base notifying him that he expected 50 cases of senior oil, which he wished dispatched without delay. The officer at the base replied, regretting the cases had not arrived, but saying he had procured all the available senior oil of 20 cases, which he had forwarded in the hope it would suffice for the present. General Buller's remarks are not recorded.

The Highland people are wondering, largely at the amount of steel Mr. Andrew Carnegie is using in the erection of his addition to Skibo castle. These Skibo Hollows have never before seen a building so done. All comes from Pittsburgh. Skibo is now heavily dubbed 'Pitt castle.' It is said a mason mistook the millionaire for some poor visitor and patronized him. On learning his identity he excused himself, saying he thought to wear better clothes, so that people may be able to tell who you are. The Tailor, a newspaper, evidently agrees with the mason, for in a satirical criticism of the clothes represented at this year's meetings, it declares that the lapels of Mr. Carnegie's coat were clumsy, the edges very widely and had to be forced through a machine of the worst character.

Catholic Knights' Election.
Chicago, May 19.—Officers of the Catholic Knights and Ladies of Honor have been elected as follows: Supreme president, James H. Grandey, Detroit; supreme vice president, E. D. Kelly, Memphis; supreme secretary, J. J. Duffy. All the routine work of the organization was disposed of before the election.

CRUISING FOR A FLY SPECK.

But For This the Rescue Crew Would Have Got the Doubleton.

The sailing of a schooner from Victoria bound for Cocos Island to dig up the rich plunder supposed to be buried there brought a number of contradictory reports about the authenticity of the treasure legend, the latest story being to the effect that it was discovered and carried away early in the eighties. A water from man was reading this yarn and, when he had finished, exclaimed:

"That shows what great results sometimes hinge on very small matters. I know a couple of men who would probably have recovered all of that treasure if it had not been for a fly."

The exclamations of surprise and incredulity which greeted this remark were all the encouragement needed, and the veteran proceeded:

"It was long in the latter part of 1879 that Thomas Dolg, Eric Johnson, William Masters and M. D. Staples, who had been running an independent pilot service at the mouth of the river with the schooner Rescuer, were driven off the bar by the Flayed monopoly. Having no further use for the schooner, Masters and Dolg sailed south in her to do a little prospecting on Cocos Island and to eventually sell the vessel in some port on the lower coast. Staples dug up some old charts of the Pacific, which, though a trifle worn with age, were supposed to be accurate, and in the season the craft sailed out of Astoria, never to return. Cocos Island was not on the map, but there was no name attached to it. In due season, the Rescuer and her fortune hunters reached the latitude and longitude where the island of riches showed up on the map. They almost went blind straining their eyes to catch sight of the land, but their search was unrewarded, and like Noah's ark in the flood, the Rescuer sailed on, and the Rescuer's crew was left to find their way back to the mainland."

"There is no telling how long this state of affairs would have lasted had it not been for the discovery made by Dolg one morning. Masters had the old chart spread out on the table and was figuring away for dear life when Dolg came down from the deck. He leaned over Masters' shoulder, drew his sheath knife and made a scratch on the paper. Cocos Island disappeared, and Masters, as soon as he recognized his composure, said, 'Well, I'll be darned if it wasn't a fly speck!'"

"This discovery disgusted them so much that they bore away for San Jose de Guatimala, where the schooner was sold, and Dolg became a merchant in the navy at that point, and it was only about a year later that Dolg, who had been sailing on the Rescuer, before this other outfit came along to Cocos and dug up a schooner load of Spanish doubloons, showing plainly that if it had not been for that fly Dolg and Masters would have found the treasure, for if the fly had kept off the paper they would never have sailed without a man showing the island, and, of course, if they had found the island before the treasure was taken it would have been theirs."—Portland Oregonian.

De Lesseps' Diplomacy.

When De Lesseps was in Egypt as president of a sanitary commission in 1884, it became his duty to inspect a great number of convicts in the Egyptian galleys, and among these he found upward of 400 Syrians from Nazareth, all Christians. The Nazarenes begged him to do something to get them free. De Lesseps set about procuring their release. As Mehemet Ali, the viceroy, had reasons for wishing to stand well with the French, he told De Lesseps that he would quickly procure the liberation of five prisoners a week until they were all free, but presently De Lesseps' donors were besieged by the relatives and friends of the remaining prisoners. The Frenchman was so nearly torn to pieces by these importunate people that he purposely had one of his suits of clothes literally torn to tatters, and on the next occasion, when he was to see the viceroy, he wore it.

Mechemet was astonished at such an extraordinary costume. "What has happened to you, Mr. Mechemet?" he cried. "Oh, your highness," answered De Lesseps, "no one but yourself has put me into this plight, for in ordering that those Nazarenes should be set free at the rate of five a week you have left me the prey of the families of those who remain in the galleys. They are tearing me to pieces, and so it will be as long as any are left. There were 412. Your highness, by computing, can see how long I must go in rags!"

"Oh, your highness," answered De Lesseps, "no one but yourself has put me into this plight, for in ordering that those Nazarenes should be set free at the rate of five a week you have left me the prey of the families of those who remain in the galleys. They are tearing me to pieces, and so it will be as long as any are left. There were 412. Your highness, by computing, can see how long I must go in rags!"

THE HERO'S LOG.

Information From Alaska Brought Down by Coal Steamer.

Victoria, B. C., May 19.—Leaving Dutch harbor on the 10th inst., the steamship Hero, now carrying coal to Unalaska from Comox, arrived at Esquimalt yesterday. She brings news that 150 miles north of Dutch harbor there is a sea of ice which no vessel can break through. The steamer Alpha, on her way to Nome from Victoria and Vancouver, had been prevented from completing her voyage, and on the 7th inst. put back to Dutch harbor to replenish her bunker coal after lying off the ice for 20 days. She sailed again on the 9th and will take the first opportunity of making headway through the ice. Only one passenger declined to continue the voyage.

The whalers Alexander, William Bayless, Belvedere, Redoubt and the longhairs Pitcairn, bound for Nome with freight and passengers bound north, were at Unalaska when the Hero called, and the officers gave it as their opinion that the Alpha would not reach Nome till toward the last of June. The officers of the Hero denied the report that there had been a mutiny on board that ship and said that the only trouble they experienced with their men was settled with little difficulty.

The Hero also reports that the little mail steamer running between Sitka and Unalaska is over a month overdue and it is feared she is lost. The only boat met in the north was the steam whaler Karluk. Her captain said it was the severest winter he had ever experienced in the north. May 3 was one of the coldest days.

The whaler Karluk was the only vessel sighted. Her captain reported that the steamer Eliza Anderson lies a wreck on the beach. The tug Marie D. Hume of Seattle was also in port. The Alpha again left on the 9th for St. Michael's, where she will have to wait for want of water when Dutch Harbor was reached.

The steam whaler Eliza Anderson lies a wreck on the beach. The tug Marie D. Hume of Seattle was also in port. The Alpha again left on the 9th for St. Michael's, where she will have to wait for want of water when Dutch Harbor was reached.

THE CLARK TANGLE.

Two Sets of Credentials Before the United States Senate.

New York, May 19.—The Washington correspondent of The Commercial Advertiser says:

"The appointment of Martin Maginnis as senator by Governor Smith of Montana, and the complications surrounding it, have been the subject of much discussion. In the first place, it brings before the senate two sets of credentials and makes arguments for referring Clark's credentials to the committee on privileges and elections for investigation all the stronger. With two sets of credentials before it the senate would not think ordinarily of accepting either without further inquiry. But there is a more important factor. It will be contended that even if the appointment by Spitzers, the lieutenant governor, were entirely valid and unimpaired by fraud Governor Smith would still have the right to appoint."

"As executive of the state he is competent to annul an act of his own so long as it is still incomplete. If Smith had appointed Clark, he would be competent to withdraw Clark's appointment at any time prior to the acceptance of Clark's credentials by the senate. That happens not infrequently in the case of executive appointments. The president has on more than one occasion sent nominations to the senate only to withdraw them on later information before action by the senate. It is contended that what can be done by an executive with regard to an appointment by an official acting in his stead."

"When Grover Cleveland became president a second time, one of the first things he did was to withdraw the Hawaiian treaty negotiated by Harrison, although the treaty was then before the senate and would certainly have been ratified. The question is now whether Governor Smith can withdraw Clark's appointment at any time prior to the acceptance of Clark's credentials by the senate. That happens not infrequently in the case of executive appointments. The president has on more than one occasion sent nominations to the senate only to withdraw them on later information before action by the senate. It is contended that what can be done by an executive with regard to an appointment by an official acting in his stead."

NAVAL RESERVE PLAN.

Scheme to Instruct Coast Fishermen in Seamanship.

WILL BE SUBJECT TO CALL.

After Enrollment and Training They Will Form an Efficient Reserve Force—Their Value as Sailors on Warships.

Washington, May 19.—Naval officials are seriously considering, it is learned, the bringing forward of a comprehensive plan for naval reserves which will closely resemble the new reserve system of the British service. The details of the proposed plan have been carefully worked out. Although no direct reference is made, it is thought that the recent reluctance evinced on the part of some of the naval militia of the states to embark on practice cruises on naval vessels is the occasion for bringing forth a reserve system which will be entirely under the control of the navy department.

From what can be learned the proposed plan is to enroll on the reserve lists, subject to call, volunteers drawn largely from the coast fisherman population. During the Spanish-American war volunteers came forward in large numbers from the Gloucester-Salem section, but all efforts to obtain enlistments from the same districts in peace times have proved unsuccessful. The Gloucester men were valuable recruits, inasmuch as they were seamen in all that the term implies. They lacked, however, the technical knowledge of the man-of-war's man in matters of drill and exercise.

The Service Required.
The proposed scheme is to pay a retaining fee to all reservists and to require from four to five months' service from these men on board reserve training ships each year. The remainder of the year they will be free to engage in their regular vocations. At least one month of the service with the navy will be devoted exclusively to battery work in order to instruct as rapidly as possible in gunnery. The Gloucester-Salem men, the New Jersey coast fishermen, the Carolina surfmen, all of them, have what is termed their lay off seasons. In some sections the fishing season lasts not more than five months. The idea is to take advantage of the lay off seasons for drill purposes and to return the reservists to their homes in ample time to prepare for their season's work.

Naval men contend that with the 32,000 bluejackets demanded by the navy as it exists today, some such plan must be put through to insure the manning of the fleet. Recruits are only available when they have the sea instinct. If added to this, they possess a first class knowledge of the routine work of a ship of war, their value is inestimable. Recently Canada, Australia, New Zealand and other British colonies have formulated reserve systems. The Canadian system draws largely on the Newfoundland fishermen. The New Zealand men, it is said, are engaged in the fishing industry about six months of the year.

For reserve training ships the United States possesses in the Buffalo, Prairie, Yosemite and Dixie ideal vessels.

Grant's Statue Unveiled.

Washington, May 19.—The statue of General Grant presented by the Grand Army of the Republic to the nation was unveiled in the great rotunda of the capitol today and elaborate ceremonies commemorative of the event were held in the hall of representatives in the presence of a vast concourse of people who included the widow, daughter and descendants of the hero of the Appomattox, hundreds of his comrades in arms, the officers and committee of the G. A. R. and many persons distinguished in military, political and society circles. The statue of the pre-eminent chief of the Union forces in America is the famous French style of cold-plate work. Every American family will want one of these handsome pictures of Admiral Dewey. It must be remembered that the picture will be in no sense a cheap chromo, but will be an example of the very highest style of illuminated printing. It will be an ornament to any library or drawing room. Our readers can have the Dewey portrait at what costs us (namely, ten cents per copy) by merely filling out the coupon below, and sending it to this office at once. There will be such a demand for this portrait when it is published that we advise sending orders in advance. As many copies as may be desired can be had on one coupon, providing ten cents is sent for each copy. Write name and address plainly, and remit in coin or postage stamps.

The Rush to Cape Nome.
Seattle, Wash., May 19.—Five or six of the largest vessels are scheduled to leave for Cape Nome tomorrow. The Garonne, the largest vessel sailing from Seattle, will get away tomorrow night. Steamship Senator puts to sea this evening with nearly 500 passengers. Steamer Cleveland will sail at noon today. She has 195 passengers. The steamer Alliance will leave at 4 p. m. today. She has 350 passengers and 500 tons of mineral cargo. Steamer Lakme, Captain Schrage, will sail tonight. She has 200 passengers and 500 tons of general merchandise. The steamer Oregon is scheduled to sail tomorrow. She will have 600 passengers.

Gladstone's Statue Unveiled.
London, May 19.—In the presence of principal Liberals, including Lord Kimberley, the Marquis of Ripon, Lord Russell of Kilowen, Mr. Henry Asquith and Sir Edward Grey in the central hall of the house of commons today, Sir Henry Campbell-Bannerman, the Liberal leader in the house, unveiled a statue of Mr. Gladstone, whom he entitled the "greatest parliamentary figure of our time." The notable absentees from the ceremony were Lord Rosebery, Sir William Vernon-Harcourt and Mr. John Morley.

Porto Rico's New Secretary.
Washington, May 19.—William H. Hunt of Montana has been selected to be secretary of state for the island of Porto Rico. Mr. Hunt was recently appointed agent for the United States government before the Chilean claims commission, a position which he vacates to accept this latest appointment. He is a son of the late Secretary Hunt and a lawyer of high standing in his own state.

Sister Alphonso Dead.
Lafayette, Ind., May 19.—Sister Alphonso, mother provincial of the sisterhood of St. Francis for the United States, is dead at St. Elizabeth hospital of heart trouble. She was one of the original six sisters who came to this country in 1875.

Eleven People Killed in Wreck.
Guadalajara, Mexico, May 19.—A work train on the Guadalajara branch of the Mexican Central road ran into an obstruction, wrecking the engine and a number of cars. The American engineer and ten Mexican laborers were killed.

THE BEST AND MOST EFFECTIVE CURE KNOWN FOR BRUISES, SWELLINGS, AND ALL SKIN AFFECTIONS AND FOR COMPLAINTS, ALL LIVER AND BOWEL COMPLAINTS.

Parsons Pills

ONE PILL IS A DOSE
They make rich blood, prevent biliousness, cure skin eruptions and all ailments. Enclosed in glass vials. Postpaid—25 cents a bottle; 50 cents for six.

MONDAY, MAY 21, 1900.

A campaign book that contains all of the party platforms this year will have to be issued in two-volume sets.

In discussing the servant girl problem Dr. Sheldon should take as his text, "Lord, keep thy servant another week."

Chicago's new city directory shows a population of 2,001,000. Accuracy and good measure are both attested by that odd 1000.

Populist headquarters will be established at Lincoln, where most of the political vagaries of the present day are generated.

Oom Paul Pingree cannot conceal his amazement that a man like Roosevelt should refuse an office like that of vice president.

The democratic party of Illinois hasn't smiled since the name of Dick Yates reappeared above the political horizon last week.

The nomination of Bryan and Towne, two smooth-faced men, is a great blow to the bewhiskered style of populism in vogue four years ago.

Forty cars of harvesting machines are being tracked in Kansas City waiting to get into the Kansas wheat fields. These are the first spellbinders of the season.

Editor Watterson is becoming conservative. According to his revised list for 1900 there are less than twenty distinct reforms demanded by the people.

Col. Bryan has had his lawn planked over and will direct his campaign from Lincoln. Torchlight processions are requested to stack arms outside the front gate.

Recent proceedings in congress indicate very clearly that the United States government will have to build the Nicaragua canal without the help of any Missouri mules.

Only at its peril can the democratic national convention vary its platform from that adopted at Sioux Falls. The populists are making the pace with the democrats hitched behind.

Nothing remains now for the democratic party except to study the art of how to make the Bryan and Towne platform sound like something else by expressing it in different words.

An orator at one of the recent populist conventions remarked: "The future success of mankind hinges on this movement of ours." The phrase seems to be a scrap left over from the silver eloquence of 1896.

The season is a little backward and the Bryanites are praying that crops this year may be a failure. Short crops would be a calamity to the country, but it is only on calamity that the Bryanites have any chance for victory. An epidemic of Asiatic cholera or yellow fever would please the democratic bosses at this time. The prosperity and the general good fortune which the United States has had ever since the republican party came into power has been very demoralizing to the men who will assemble in Kansas City a few weeks hence to put up a national ticket. The chances, however, are that the season's backwardness will not materially reduce the crops, and that the prosperity which the republican wider markets and higher prices have brought to the farmers will not be interrupted.

WENTWORTH HOUSE BRIDGE CLOSED.
Wentworth house bridge will be closed on May 28th, until further notice, for repairs, by order of selectmen of Rye.

MAY BE MURDER.

Dead Woman Had Dagger In Her Side.

Young Man Taken Into Custody On Suspicion.

A ROXBURY CASE THAT MAY PROVE SENSATIONAL.

Boston, May 20.—Mae Butler, an unusually handsome woman of twenty-three, was found dead at the home of Mrs. A. E. Wright, in Roxbury, early this morning, with a dagger in her side, and Edward T. Wright, Mrs. Wright's son, has been arrested on suspicion of murder. It was at first reported a suicide, but the police, soon after an examination, felt justified in taking young Wright into custody. Wright is twenty-one years old. He says he became acquainted with the girl in an Eliot street restaurant, where she worked; that she was taken ill two weeks ago, and as she seemed to have no relatives or friends, he took her to his home, to give her proper care.

DIED UNDER PECULIAR CONDITIONS.

Boston, May 20.—The police of the Jamaica Plain district were called upon this afternoon to investigate the cause of the death of Miss Ella Maud Hunley, who died at the home of her aunt, under peculiar conditions. Miss Hunley was twenty-five years old, and the daughter of a well known resident of Gloucester. She left home a week ago to visit her aunt, but the latter saw nothing of her until this afternoon, when she came to her house with a man who said he was a doctor, and who, after leaving the young lady, drove away without disclosing his identity. Miss Hunley was very ill and grew rapidly worse. A physician pronounced the trouble peritonitis. She became delirious and died this afternoon without regaining consciousness. The police believe the girl came here to have an operation performed and that the parties to whom she went for treatment became alarmed when they saw the effects of the operation and decided to avoid the risk of having her die on their hands by taking her to her aunt's residence.

TWO SOPHOMORES DROWNED.

Princeton, N. J., May 20.—Two members of the Princeton sophomore class, Ray of New Jersey and Auger of Illinois, were drowned today while trying to shoot the rapids in a canoe at Kingston dam.

WEATHER INDICATIONS.

WASHINGTON, May 20.—Forecast for New England: Fair, moderate temperature, Monday and Tuesday, fresh westerly winds.

Sweet butter can't be made in a sour churn. The stomach is a churn. When the food is fouled the blood made from it is fouled also. Foul blood means disease. Cleanse the churn and you have sweet butter. Cleanse the stomach and you have pure blood. The far reaching action of Dr. Pierce's Golden Medical Discovery is due to its effect on the stomach and organs of digestion and nutrition. Diseases that begin in the stomach are cured through the stomach. Dr. Pierce's Golden Medical Discovery has proved a great blessing to me, writes Mrs. Ellen E. Bacon, of Salisbury, Franklin Co., Mass. "Prior to September, 1897, I had doctor for my stomach trouble for several years, going through a course of treatment without any real benefit. In September, 1897, I had very sick spells and grew worse, could eat but little. I commenced to take Dr. Pierce's medicine and in a short time I could eat and work. I have gained twenty pounds in two months." Dr. Pierce's Common Sense Medical Adviser sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper-bound volume, or 31 cents for cloth binding, to Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

THE WAR IN SOUTH AFRICA.

No Official Confirmation.

LONDON, May 20.—The war office announces that Lord Roberts has sent a despatch, saying that he has not yet received any official confirmation that Mafeking has been relieved.

Proposing Terms of Peace.

LONDON, May 21.—Displayed in the most conspicuous style in the Daily Express in the prominent war news of the morning is: "We have the best reasons for stating that in the last twenty-four hours a telegram has been received at the foreign office, addressed personally to the foreign minister, from President Kruger, proposing terms of peace. The exact terms of the message cannot be stated, but it is, we learn, couched in an exceedingly humble strain. It is inconceivable, of course, that Lord Salisbury can present any reply except the one which stands ready on the lip of every Briton: 'Unconditional surrender.'"

Confirms The Report.

LONDON, May 20.—The Standard and Diggers' News confirms the report of the raising of the siege of Mafeking.

ROUTED THE REBELS.

MANILA, May 20.—Five hundred insurgents, half of whom were armed with rifles, ambushed eighty scouts of the Forth Infantry at Aguisan, in the northern part of the island of Mindanao. The Americans routed the rebels, killing fifty-one of them. The American loss was two killed and three wounded.

BASE BALL.

The following is the result of the games played in the National league yesterday:
Cincinnati 5, Brooklyn 4; at Cincinnati.
Chicago 6, Pittsburgh 3; at Chicago.
St. Louis 9, New York 5; at St. Louis.

Missionary Officers Chosen.

Muncie, Ind., May 19.—The executive board of the Foreign Missionary Society of the Methodist Protestant Church, in annual session, has elected the following officers: President, Mrs. F. A. Brown, Urichville, O.; vice president at large, Mrs. M. A. Miller, Kansas City; recording secretary, Mrs. Henry Hupfield, Baltimore; corresponding secretary, Mrs. D. S. Stephens, Kansas City; treasurer, Mrs. J. D. Anderson, Pittsburgh; Miss Emma J. Stephens, Kansas City, was elected editor of The Record.

Convicted of Manslaughter.

Buffalo, May 19.—Ginspey Antonio Barone, on trial the second time for the murder of Filippo Forestino at the Barone home on June 20, 1898, was this morning convicted of manslaughter, first degree. Sentence was not pronounced. On a former trial Barone was convicted of the crime. He was sentenced to be electrocuted at Auburn prison during the week beginning Dec. 1, 1898. A long legal fight followed and resulted in the new trial that is now about finished.

Auxiliary Engineers' Election.

Milwaukee, May 19.—The election of officers of the Insurance Association of the Grand National Auxiliary to the Brotherhood of Locomotive Engineers resulted as follows: President, Mrs. George Wilson, Allegheny, Pa.; secretary and treasurer, Mrs. M. L. Robertson, Toledo; trustees, Mrs. Chester Darnell, former president of insurance, chairman; Mrs. Frank Bommer, Eaton, Tex., and Mrs. M. C. Oser, former secretary and treasurer of insurance.

Deadlock Broken.

Norfolk, Va., May 19.—The fourteenth district republican convention deadlock was broken on the twenty-one hundred and first ballot. W. W. Skiles of Shelby county was nominated for congress. R. M. Elroy of Knox and John W. Barry of Morrow were selected as delegates to Philadelphia and H. E. Bradley of Huron and A. C. Young of Ashland as alternates. The resolution strongly in favor of President McKinley.

Actress Marries Wealthy Man.

Boston, May 19.—Mrs. Adelaide Dick, known in theatrical life as La Petite Adelaide, has just been married to Mr. W. A. Lloyd, a wealthy New Yorker, at Pawtucket, R. I. The bride returned here and appeared at a local theater as usual, and after the performance the marriage was announced. Mrs. Lloyd's home is in Cohasset, N. Y.

Belgium's King in England.

LONDON, May 19.—The king of the Belgians has arrived in England on a visit.

MOVEMENTS OF NAVAL VESSELS.

The training ship Adams has arrived at Port Angeles, Wash. The flagship New York and the battleship Texas sailed from Fort Monroe for the New York navy yard on Thursday. The Texas will have target practice on the run north. The naval militia training ship Prairie has sailed from Key West for Brunswick, Ga.
The New York is in need of repairs and those will be made at the New York yard. The navy department has ordered that they be completed by May 31, so that the New York may be at Newport for the opening of the war college.
When doctors fail try Burdock Blood Bitters. Cures dyspepsia, constipation; invigorates the whole system.

MINDFUL OF THE HORSES.

A Statesman Narrates a Tale of His Trials and Tribulations.

"A prophet is not without honor save in his own country," quoted the reporter to a distinguished statesman.
"Nor a member of congress save in his own district," responded the statesman to whom he was talking, and who happened to be a representative from a state whose name shall not be mentioned here.
"Are they so bad as that?"
"Well," laughed the statesman, "be good for a few minutes and I'll tell you a story. When I was running for congress in my second race—that is to say, for reelection—I had one appointment in the most remote county to which I had to go alone, my traveling companion having been taken sick. I knew only a few of the people, as it was very strongly the other way, and I did not cultivate it very zealously, and I scarcely knew the country at all. However, I got in a speech one night, and after it was over was picking my way back to the house where I was to sleep. In the course of my wanderings I struck an old shack of a railing, and the next thing I knew I had gone through it and dropped into a well of some kind, very large and with perhaps four feet of water in it. I wasn't hurt, but I was scared, and I set up a lusty shout, which soon brought a couple of men to the rescue.
"Who's that?" called one of them down through the darkness.
"It's me," I answered, "Colonel Blank, the member of congress. Help me out of this."
"In response to this there was a consultation, most of which I heard.
"Oh, I say, Bill," laughed the one who had first called, as if talking to some one further away, "it's that congressman that's been makin' the powwow at the schoolhouse."
"Gosharny!" hawhawed the other one. "Let's let him stay there. It'll only be one congressman less, and him the one we want to beat."
"Dern of I wouldn't like to," said the first hesitatingly, "but if we do it'll spill the well, and what'll the horses and cows do for drinkin' water?"
"What other pleasing reflections they might have cast upon me," concluded the gentleman, "I do not know, for I became impatient and set up such a row that they were forced to come to my assistance in a hurry."—Washington Star.

THE BRITISH SPEAKER.

He Receives No Salary and Has to Work Pretty Hard.

The speaker of the house of commons receives no salary at all, but he has to work hard for that. He begins his duties at 5 in the afternoon, as usually commencing at 8 in the morning, for the house is fond of sitting until somewhere near sunrise.
The speaker must have the present and the old rules of the house at his fingers' ends, for everything in England is done by precedent. He has to preserve order and must decide every parliamentary question raised, no matter what its nature. He announces divisions, pronounces punishment upon refractory members, and, worst of all, he must listen to all speeches, whether good or bad.
He always presides, save when the house is in committee, and then the deputy speaker or the chairman of the ways and means committee occupies the chair. On such occasions the mace rests beneath the table. When the speaker is in the chair, it is in full view upon the table.
A "division" is about the most interesting thing that ever happens in the chamber of the house of commons. The speaker or will put the question in this form:
"The question is, that this bill do now pass its second reading. The yeas have it."
"The nays have it," cries an opposition member, and the division is ordered by the speaker, who announces: "Division. Strangers please withdraw."
The galleries are cleared. A little two minute sand glass is turned down by the speaker, and the members are called to rise while the sand is running out; attendants and policemen run through the various parts of the house crying, "Division!" and the members come into the chamber. The speaker again announces a division and names two tellers to represent each side.
The yeas pass into one lobby and the nays into another. Two clerks stand in each with a list of the members ready. As the member enters his vote is checked off. The tellers are then announced, and the division, lasting usually 20 minutes, is over. The speaker makes the announcement of the result, and the house resumes its quiet.—Exchange.

Effects of Alkali on Soil.

The means used by farmers to reduce the inert matter of the soil to a condition of plant food are many, though farmers may not always be aware of the chemical action occurring in the soil. When manure is applied or green crops plowed under, the fermentation of the substances induces changes of the mineral matter of the soil, and farmers have long ago noticed that lime causes an improvement of the soil, the effects of which were apparent for several seasons. The food value of lime is a small matter compared with its physical effect on the soil, as it favors the growth of the nitric ferment and also breaks down existing combinations. When soil is sour, it is neutralized by alkalis—potash, lime, soda, etc.—and the combination of lime with other elements existing in the soil liberates potash and places it within the reach of plants. The alkalis hasten the decay of vegetable matter, and this decomposition also causes chemical action by which the breaking down processes are continued, but lime may be useless on soils that abound in potash and phosphates, which are ready for the use of plants.—Philadelphia Record.

Useless to Wait.

Since the fact has been published that bundles left in trains are often picked up by dishonest passengers who make a practice of being among the last to leave the car some disagreeable complications have arisen.
Two passengers sat facing each other as the train rolled into the station.
The alien was full of suburbanites crowding toward the doors, but these two kept their seats. They were not in a hurry. Finally one of them spoke.
"It won't do you any good to wait, mister," she said. "I'm not going to forget this umbrella and walk out and leave it. I'm a little better. That's why I don't care out with the rest of 'em."
With the look of an injured man the other passenger got up and made his way as rapidly as possible to the rear door.—Chicago Tribune.

Cattle in Newfoundland.

The Portuguese attempted to establish herds of cattle in Newfoundland in 1555, but all traces of these animals have vanished.

KNOCKED HIM OUT.

John L. Sullivan Did It Once Without Striking a Blow.

A Cleveland man who was a great admirer of John L. Sullivan's prowess in the roped arena recently told the following story of the former pugilistic champion: "It happened in the days when Sullivan was the world's champion and the most feared man in the ring. 'Sully' was touring the country with an offer of \$250 to any man, bar none, who would stay in the ring with him for four rounds. Many essayed that dangerous feat, and the same number failed. Finally the aggregation reached one of the largest of our western cities, in which the leading paper was owned by a man who was an all around sport and who took an especial interest in matters appertaining to the squared circle.
"The editor had a young protégé who aspired to pugilistic honors in the person of a young butcher who had knocked out all the local 'plug uglies' and was reaching out for other fields to conquer. Him the editor determined to pit against the great John L., but upon reflecting the subject to his man the latter promptly interposed countless objections, manifestly inspired by fear. The editor, however, knew John well, so he sought him out and, after telling him of his 'pug' and what he wanted, said: 'Now, John, let him stay until the last part of the third or the first part of the fourth round. You can put him out whenever you want to, but if you let him last a bit it won't hurt you, and it will help him a lot.'
"The great man pondered for a moment and then made reply: 'Naw I won't do it. I've seen dis duck, and he's a big, husky feller, and if by accident he landed a wallop on me jaw, why de next day it'd be Sullivan de stuff, and 'yours truly' would be drivin' a street car. No, I puts him out as soon as ever I can, and that goes, see?' The editor made another appeal, to which John astutely replied: 'Say, youse say it can't do me no harm. Why don't you set some bright young feller in your line up in an afternoon paper?' The editor, acknowledging the point well taken, retired from the argument.
"That night when the time arrived for the bout Sullivan arose from his corner and threw off his bath wrapper. As the editor expressed it afterward, he seemed to swell out like an accordion, and then, putting on that awful expression that defeats many an opponent before a blow was struck, John L. called out to the trembling young butcher in the other corner: 'Say, youse over dere, some fronts of youse came to me ter day and asked me to let you stay till de last of the third or de first of de fort, but I told 'em, naw. I was going to knock you out when I gets de chance. Since den my think tank's been workin' and I ain't goin' ter knock youse out at all. I'm a-goin' ter—' and here Mr. Sullivan surveyed his prospective victim with a diabolically bloodthirsty smile: 'I'm just a-goin' ter stun yer.' With a howl like an entrapped beast the editor's protégé fled from the stage and from the realms of pugilism for all time."—New York Tribune.

A Real Fortress.

The monastery of Solovetsk, in Archangel, Russia, is inclosed on every side by a wall of granite boulders, measuring nearly a mile in circumference, and is the best protected in the world. The monastery itself is very strongly fortified, being supported by round and square towers about 80 feet in height, with walls 20 feet in thickness. The monastery consists in reality of six churches, which are completely filled with statues of all kinds and precious stones.
Upon the walls and the towers surrounding these churches are mounted huge guns, which in the time of the Crimean war were directed against the British White sea squadron. The monks who inhabited the monastery at that time marched in procession on the granite walls while the shells were flying over their heads to prove how little they feared the attack of the British fleet. Ten thousand pilgrims come annually to Solovetsk from all parts of Russia to view the churches and the relics. They are conveyed in steamers commanded and manned solely by monks.

CITY BRIEFS

Sunday was quite a day for tourists. One week from today occurs the solar eclipse. The cars to York were well filled on Sunday. The Rye cars were well patronized on Sunday. A new hurdy gurdy struck town this morning. Four hundred visitors were on the navy yard on Sunday. The board of managers of the board of trade met this evening. The census enumerators will commence their work the first of June.

It is reported that another express company is to be established in this city.

Things are progressing finely looking to the early completion of the naval band.

The Pullman on Sunday evening consisted of twelve cars, all very heavily laden.

Conner, photographer studio, (formerly Nickerson's,) No. 1 Congress street.

A sailor from the Bath was taken to the Cottage hospital, today, suffering with paralysis.

The lowery weather on Sunday interfered materially with the business of the livermen.

Labor and industrial statistics show that but a small percentage of laboring people keep an expense account.

Rubber heels become very popular and John G. Mott is fitting out the local public with an excellent article.

Lots of money made on New York Stock Exchange with \$30. Send for particulars. ARCHIBALD AINSIE, 34 Broadway, New York.

There should be no contests on the part of Portsmouth republicans at the state and county elections. There are no factions and let us win.

CHURCH NOTES.

Rev. Clarence M. Seimens of the Advent church, Sunday afternoon, spoke on "The Secret of a Happy Life."

Workmen have begun to lay a new sidewalk in front of the annex of the Middle street Baptist church on State street.

The ladies of the People's church society are busy preparing for their social event this week at the South ward room.

The quarterly session of the Eliot, York and Kittery Sunday school union will be held at the Second Methodist church, Kittery, Tuesday, May 22.

The Daughters of the King, connected with St. John's church, are planning for a strawberry festival to be given in the near future, probably in Peirce hall.

The first quarterly conference of the Exeter Methodist church was held on Sunday evening and Presiding Elder J. E. Robins of the Dover district was present.

The "Unchanging Christ" was the subject of the pastor of the Pearl street Baptist church on Sunday morning, and in the evening there was an evangelistic service. The evening subject was "Pleasures Real and Pleasures Perverted."

There will be a genuine treat at the Unitarian church, this Monday evening, when the Rev. Henry R. Rose of Newark, N. J., a former pastor of the Church of Christ of this city, will deliver his famous lecture, "Ben Hur." This lecture has been received with a great deal of appreciation wherever it has been given and a large audience is sure to greet Rev. Mr. Rose on his visit here.

The Feast of the Ascension will be celebrated at the Church of the Immaculate Conception on Thursday of this week and a large number of children will receive their first communion on that occasion. A number will be confirmed. Bishop Bradley of Manchester will be present and administer the sacrament. In the church calendar the day is called Holy Thursday, on which is commemorated our Saviour's ascension into Heaven, after his resurrection. The Thursday is but one before Whitsuntide.

THE U. S. T. S. ALLIANCE TO RETIRE.

According to the Army and Navy Journal the Alliance will be placed out of commission as a training ship as she is unfit for further use as a training vessel. She will be succeeded by the Topoka. The Alliance would make an excellent receiving ship for this yard.

"Better late than never." It is best how ever, to be never late about taking Hood's Sarsaparilla to purify your blood. Take it now.

THE DEAD HONORED.

Storer Post And Relief Corps Join In Memorial Services.

Impressive Address Delivered In G. A. R. Hall By Rev. Thomas Whiteside.

Records Of The Comrades Who Have Passed Away During The Last Twelvemonth.

The annual memorial service of Storer Post, No. 1, G. A. R., and Storer Relief corps, No. 6, was held at G. A. R. hall on Sunday afternoon, at 2:30 o'clock. There was a large attendance and the services were very impressive. The hall was prettily decorated with apple blossoms and evergreen. In the center of the room, about the altar, were grouped four draped chairs, symbolical of the three members of the post who have died during the past year, and one of the corps. In the absence of the commander of the post, Junior Vice Commander Lewis Harris presided. The services of the corps were first held, and then the post paid tribute to its dead.

The address of the day was delivered by Rev. Thomas Whiteside, pastor of the Methodist church, and it was most fitting. His text was: "I have fought the good fight."

Several appropriate selections were rendered by the Apollo male quartette, composed of Messrs. Whittier, Shannon, Parker and Weston.

After the records of the deceased members had been read by the adjutant, taps was sounded by Bugler Kehoe of Company B.

Those of the G. A. R. who have died during the past twelve months are: Cornelius Quinn, John H. Carleton and John Dyer. Their records are as follows:

Cornelius Quinn, born in Ireland in 1837, and enlisted in the United States navy, as landsman, on July 29th, 1861. He was discharged as quartermaster on June 20th, 1865, having served three years and eleven months. He became a member of Storer post, by muster, on December 18th, 1899. He died on May 26th, 1899, aged sixty-two years.

John Carleton was born in Portsmouth in 1836 and enlisted on September 4th, 1862, as private, in Company G, Tenth New Hampshire volunteers. He was discharged on June 21st, 1865, as private, in the same company, having served two years, nine months and seventeen days. He became a member of Storer post, by muster, on April 18th, 1885. He died July 2nd, 1899, aged sixty-three years.

John Dyer was born in Nottingham, N. H., in 1835, and enlisted on August 30th, 1861, as private, in Company B, Eighth New Hampshire volunteers. He was discharged on June 18th, 1865, as private in the same company, having served three years, four months and eighteen days. He became a member of Storer post, by muster, on November 22nd, 1884, and served the post as officer of the guard, officer of the day and junior vice commander. He died on October 20th, 1899, aged sixty-four years.

The member of Storer Relief corps who died during the past year was Mrs. Mary Walling.

MONDAY MORNING COURT.

Two Brothers for Assault and Two Drunks Appeared Before Judge Emery.

The Saturday night scrap between Hiram Galley and his brother Emory Galley, two Frenchmen, at a French boarding house on Russell street, was settled in police court this morning before Judge Emery.

The two men were arrested on the complaint of the proprietor, Officers Hilton and Robinson taking the men in custody. The two men are employed on the electric railroad extension. They filled up during the afternoon and got to fighting in their room and it was necessary for the officers to separate them.

Each was given suspended fines and costs amounting to \$15.36, the mittimus being suspended on condition that they keep out of trouble in the future. Fred Welch of Eliot pleaded guilty of being drunk on Green street Sunday and was fined \$10 and costs of \$5.38.

William Sullivan, a laborer on the new dry dock, also pleaded guilty to a complaint of drunkenness on Market square on Sunday morning. He got the usual fine and cost in such cases.

The illustrated lecture of Rev. Henry R. Rose on Ben Hur at Unitarian church, Monday evening, May 21st.

GOSSIP OF LOCAL SPORTS.

It would hardly seem that the recently organized Southern New Hampshire Base Ball league had very flattering prospects of success, so far as this city is concerned, at least. For one thing, the project, was not sufficiently advertised, and the announcement that Portsmouth had entered a team in the inter-city league came as a complete surprise to nineteen-twentieths of the local sportsmen. It is a fact, that people are inclined to be chary of sporting enterprises which have given no exploitation, and the South New Hampshire league in Portsmouth, certainly, was kept very dark until the promoters were ready to spring it upon the public. Therein lies their error. To have secured the support of the public, the Portsmouth league team should have been extensively advertised in the newspapers, previous to its organization, in order that the people might have been aroused. The Amateur is very much mistaken, if the box office receipts do not prove his words true, when the new team play its first game.

Rain prevented the local league baseball game, Saturday afternoon, between the Maplewoods and the Piscataqua club, and the game will probably be played some afternoon this week.

The directors of the City Base Ball league will meet this evening in the Y. M. C. A. rooms. Every member of the board should be present as some important matters will come up for discussion.

It is noted that the schedule of the Southern New Hampshire league gives the Portsmouth team a home game with Exeter for Memorial day. The only enclosed diamond in this city is that at the bicycle park and these grounds have already been promised to the Portsmouth city league for May 30.

The East Rochester base ball team, which a number of years ago was one of the strongest amateur teams in the state seems to have regained all its old time prowess this year. It has simply smothered every team it has met so far this season and its manager is looking for fresh victims. It seems to me that a game between the East Rochester team and the Wapenagos should be an exciting contest.

Walter Wood has evidently accepted the offer of the Springfield Eastern league team, as he pitched for that team Saturday in its game with Rochester and proved that he is the same Walter who was so valuable to Springfield three years ago. The Rochester batters touched Walter up for a home run in the very first inning and not another hit did they get for the entire game. A year with the Eastern league will put Walter in condition to go back to the big league next season, prepared to do better work than ever.

Percy Penhallow did some good work for the Harvard lacrosse team in its game with Cornell, Friday, and if the newspapers are correct, was instrumental in winning the game for Harvard. This aboriginal game is rapidly gaining favor in the American colleges and in a few years it would not be surprising if it took rank with foot ball and base ball.

THE AMATEUR.

WATER FRONT NEWS.

Arrived, May 20—Tag Wyalusing and barge Bee, Staten Island with lumber.

Arrived, May 21—Schooner Herbert M. Rogers, Plum Island, with sand for Kittery.

Sailed, May 20—Schooners Clara B. Kennard, Estella and Wilson & Willard for Boston with brick.

The hull of the old steamer New-march has been towed from the beach at Badger's island to Kittery Point and will be used as a lighter for use at the power station of the Portsmouth, Kittery & York street railway.

ALEXANDER H. LADD.

Death, This Afternoon, of the Retired and Respected Business Man.

Alexander H. Ladd, one of Portsmouth's highly respected aged residents, died quite suddenly at the family residence on Market street at about two o'clock this afternoon. His age was 87 years.

Mr. Ladd was a native of this city and was engaged in business here previously to his going to Galveston, Texas, where he was in the cotton business. His death occurred at the well known Ladd mansion. He has one son, William J. Ladd, a railroad director in New Jersey, and three daughters, Mrs. J. Langdon Ward of New York city, Mrs. Charles Wentworth of Cambridge, Mass., and Mrs. Emery of this city.

THE STATE'S GIFT.

Kearsarge Commission Will Address a Communication to School Boards Today.

The suggestion in the Herald that the school children assist in purchasing the bronze tablets for the U. S. S. Kearsarge and Alabama has met with endorsement all over the state.

The Herald learns from Chairman W. P. Chadwick of the commission that the board will issue a circular to all the school boards in the state asking them to bring the matter to the attention of the school children. If all the school children throughout the state hand in their mite the sum will be sufficient to meet the entire expense.

The state press has given the idea wide circulation. The circulars will probably be mailed today.

THE LANCASTER HERE.

Came Into the Lower Harbor at 8 o'clock This Morning, From Boston.

The U. S. T. S. Lancaster, Commander Henry B. Mansfield, U. S. N., commanding, arrived in the lower harbor at eight o'clock this morning, having left Boston on Saturday afternoon. Commander Mansfield came up to the yard shortly after the vessel dropped her anchors and paid his respects to Rear Admiral Cromwell, commandant of the yard.

The Lancaster will remain here for a day or two, probably.

MAN AND TEAM MISSING.

Philip Cohen, whose place of business is at No. 33 Hill street, is considerably worried as to the whereabouts of an agent of his and the team with which he departed from this city last Wednesday, the 16th inst. The agent started on a business trip down into Maine. Cohen advanced him a sum of money and let him take a team valued at \$125. Neither agent nor outfit has since been seen here. Cohen went to York for traces of them last Saturday, but his trip was useless. On Sunday, he was told that the agent had been seen in Biddeford, and he at once left for that city. The missing man has been in Cohen's employ for three months.

GOING OUT OF COMMISSION.

The United States cruiser Detroit will be placed out of commission at the navy yard on Wednesday and will undergo repairs.

PERSONALS.

Hon. Frank Jones went to New York on Saturday.

Harley Giles of Dover is the guest of friends in this city.

Samuel Bowden of York Beach, Me., was a visitor to this city on Sunday. Miss Mae Lyndon of Daniel street returned on Sunday from a visit in Boston.

J. Ed. Pickering, Howe Call and John Mitchell were in Boston on Sunday.

Mr. and Mrs. Herbert B. Prime are on a fishing trip to West Alton, this week.

Dr. Byron F. Staples of Lynn, Mass., passed Sunday at his home on Middle street.

Governor Frank West Rollins and Mrs. Rollins are at York Harbor for a few days.

Mr. Harry Pearson of the Manchester Union staff was a visitor to the Herald office today.

The Misses Edna and Lucille Garland of Lowell, Mass., are visiting relatives in this city.

Charles J. Glidden, a well-known telephone magnate, has been in town for the past two days.

Mrs. Willis Underhill has resigned her position as stenographer at J. A. & A. W. Walker's office.

Erasmus Deane of Boston passed Sunday with his mother, Mrs. Dunbar on Government street, Kittery.

Supt. of Schools William Morrison and J. C. Simpson came down from Boston, Saturday afternoon.

S. L. Blood, who has been visiting friends in Lynn, Mass., for the past week, returned home on Saturday evening.

Michael Griffin has secured a position as book-keeper at the big bottling plant at the Frank Jones Brewing company.

Colonel A. F. Howard and wife returned on Saturday evening from a two weeks' trip to Minneapolis, Chicago and Duluth.

W. S. Chase, formerly brakeman on Conductor Toner's train, on the Eastern division of the Boston and Maine, is now running on No. 71.

H. F. Hunt, who for some time has been traveling agent for the Frank Jones Brewing company, has become day clerk at the Rockingham.

The condition of Frank Ham, who has been very ill for a week with acute congestion of the brain, was somewhat improved on Sunday.

Mrs. Abbie Montgomery and daughter, Mrs. Thomas T. Brackett, have arrived from the west and are the guests of Mr. and Mrs. Horace P. Montgomery, Middle street.

Pay Inspector Joseph Foster, U. S. N., fleet paymaster of the North Atlantic squadron, and attached to the flagship New York, which is now at New York, paid a flying visit to his home here on Sunday. He is enjoying excellent health and was given a warm greeting by his friends.

Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Electric Oil, the household remedy.

PRINCIPAL BROWN RESIGNS.

Principal Robert M. Brown of the High school has resigned, in order to take an advanced course of studies, probably at Harvard. The resignation will take effect at the close of this term. Mr. Brown has been in charge of the High school for three years.
